

D219 & D69 Present "KIDS CAN ENGINEER," a FREE series of STEM* classes for Madison Elementary students in grades K-2 and their parents

*(STEM: SCIENCE + TECHNOLOGY + ENGINEERING + MATH)

D219 & D69, through the Classrooms First Consolidation partnership, is offering a FREE series of STEM and Literacy classes that will introduce computer programming, coding, animation, robotics and engineering to Madison Elementary K-2 students. Parents attend sessions with their student. Each session is 45 minutes in length. All sessions are held at Madison Elementary School. Sign up for your one time slot for the three sessions using the following link or the District 69 homepage. The deadline for registration is **November 30th, 2018**, or until sessions are full.

KIDS CAN ENGINEER is a sequential series of three STEM and Literacy sessions for students and their parents. Events will be held on the following dates with sessions scheduled at 5:00 pm, 6:00 pm and 7:00 pm:

Session 1: Wednesday, December 19th
Session 2: Wednesday, January 16th
Session 3: Wednesday, February 20th

We ask that you please select your desired time slot for the three sessions of this year's KIDS CAN ENGINEER series by completing this [form](#) or by visiting the district website at <https://sd69.org>. Space is limited so make sure to sign up today!

We look forward toward seeing you and your student!
