

District 69 is offering our Summer Exploration program again this coming summer! The program is open to students who are entering grades 1 and 2 during the 2019-20 school year.

Summer Exploration will be held at Madison School and it will be a full-day program. The program will have a morning and afternoon session. The morning session (8:00-11:30) will be academically focused and students will participate in engaging STEM, literacy, and math activities. Lessons will be structured using problem-based learning activities, which is a way for students to explore concepts through collaboration and discovery!

In the afternoon (11:30-3:00), the Skokie Park District will host a summer camp exclusively for our Summer Exploration students. This will be located at Madison School as well. Students will eat lunch in the Madison cafeteria and then will have the opportunity to engage in extension activities that align with our Summer Exploration curriculum.
